EDUCATION

Birla Institute of Technology, Mesra

May 2026

Bachelor of Technology in Computer Science; CGPA: 8.05/10.00

Ranchi, Jharkhand

- **Relevant Coursework:** Data Structures and Algorithms, Database Management System, Operating Systems, Object-Oriented Programming, Computer Networks

EXPERIENCE

Goldman Sachs

May 2025 – July 2025

Software Engineer Intern (Summer Analyst)

Onsite – Hyderabad, Telangana

- Contributed to the **Controllers Engineering Division**, designing and deploying scalable and resilient microservices using **Java**, **Spring Boot**, and **AWS** to automate critical internal reporting workflows, efficiently processing **lakhs of records within minutes**.
- Developed responsive and modular frontend components using **React.js** and **TypeScript**, significantly improving the performance, usability, and maintainability of internal reporting tools.
- Maintained **100% test coverage** across services using test-driven development, integrated **CI/CD with GitLab**, and deployed through **Amazon S3** and **ECS** with API testing via **Postman**.

Anonimo Interactive

Oct 2024 – April 2025

Software Engineer Intern

Remote – Bengaluru, Karnataka

- Designed and developed **Salesy**, a full-stack app with React.js frontend and Node.js backend, increasing user retention by **15%** and serving **1,000+** active monthly users.
- Integrated AI-driven chatbot with Socket.IO for real-time interaction and Plivo APIs for desktop calling, reducing query resolution time by **30%** and facilitating **100+** daily calls.
- Streamlined API integration, optimizing data flow by **20%** and maintaining a **99%** system uptime.

PROJECTS

Chat-a-BIT | *HTML, Tailwind CSS, JavaScript, React, MongoDB, Express, Node.js, Socket.IO, JWT* [Link](#) | [GitHub](#)

- Developed a robust chatting platform for BIT Mesra students with real-time communication using Socket.IO; achieved consistent uptime of **95%**, ensuring reliable service access for users.
- Designed a fully responsive application, leading to a **40%** increase in cross-platform compatibility and a **25%** boost in user engagement through targeted performance optimizations and UI enhancements.

ScanMyResume | *React, TypeScript, Tailwind CSS, Vite, Zustand, Puter.js, React Router v7*

[Link](#) | [GitHub](#)

- Built ScanMyResume, an AI-powered platform that analyzes resumes against job descriptions, simulates ATS scoring, and delivers actionable, personalized feedback to enhance job application success.
- Enabled resume upload, management, and secure storage, alongside visual performance insights and a clean, responsive user interface for a seamless user experience.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, JavaScript, Typescript
- **Web Development:** React.js, Next.js, Springboot, Node.js, Tailwind CSS, Express.js, RESTful APIs, Socket.IO
- **Tools & Frameworks:** Git, GitHub, Linux, Mongoose, AWS, CI/CD
- **Databases:** MongoDB, SQL, PostgreSQL, MySQL, Oracle Database

ACHIEVEMENTS & CERTIFICATIONS

- Solved 700+ coding problems across various platforms demonstrating proficiency
- Runner-up in Data Hunt organized by the Society for Data Science
- Amazon Web Services (AWS) Certified Cloud Practitioner

POSITIONS OF RESPONSIBILITY

Webmaster: Rotaract Club of BIT Mesra

Executive Member: Society for Data Science, BIT Mesra

Programming Team Member: Google Developer Student Clubs, BIT Mesra

Member: Student Alumni Relations Cell, BIT Mesra
